GARDENIAS COLLECTION

Jaime Hayon (Madrid, 1974) sigue siendo uno de los diseñadores españoles más sugerentes del panorama internacional. Gardenias Collection es su segunda gran colección para BD y se ha gestado sobre las mismas virtudes de la primera: tiene calidad, personalidad, elegancia, el punto justo de romanticismo y mucha polivalencia tanto en home como en contract. Ahora se suma a la familia la Monkey Side Table. Una escultura útil fabricada de una sola pieza con hormigón arquitectónico. Para uso interior y exterior.

Jaime Hayon (Madrid, 1974) continues to be one of the most emerging Spanish designers on the international scene. The Gardenias Collection is the second creation for BD and has thrived on the same virtues as the first. It has quality, personality, elegance, the right point of romanticism and lots of versatility, just right for the home as well as contract. An addition to the Collection is the Monkey Side Table. It's a useful sculpture made of solid architectural concrete for indoor and outdoor use.
